

YOUR QUALITY OF LIFE IS AT RISK

Industrial development in the Rural Crescent

Threatens to resurrect
The Bi-County Parkway/Outer Beltway
Cutting through the entire county
Damaging our Occoquan Reservoir and our National Parks
Bringing over 20 Million sq.ft. of huge/tall buildings

Traffic analysis of the Pageland application

Predicts an increase from 1,931 to 27,337 vehicles
Along this route and surrounding communities
Much of that will be truck traffic
Due to the industrial corridor being proposed

INDUSTRIAL BLIGHT

Will bring millions to a few developers and landowners
And warehouses, distribution centers and other
Massive buildings to multiple neighborhoods
